

6th Nordic PEF Agrifood workshop, 29 September 2021

State of play: How does PEF translate to food?

Environmental footprinting of agricultural products and food

The Nordic Environmental Footprint Group (NEF) invites to the 6th Nordic workshop on agrifood related themes concerning the European Product Environmental Footprint (PEF) methodological framework.

The PEF agrifood workshop will present the state of play for the Farm to Fork strategy, will open the PEF-toolbox, present the latest Nordic results and present practical experience with PEF-based labelling and the market pull for product oriented environmental information.

Programme

- 10:30 **Registration**
- 10:45 - 10:55 **Gert Sønderskov Hansen**, *Senior Advisor, Danish Environmental Protection Agency, Chair for Nordic Environmental Footprint Group (NEF)*
Welcome and introduction to the NEF Group
- 10:55 - 11:05 **Anette Christiansen**, *Environmental Manager, The Danish Food and Agriculture Council*
Welcome
- 11:05 - 12:00 **Claire Bury**, *Deputy Director-General, European Commission, DG SANTE*
Key note on:
- **F2F: What is at play?**
- **How is the F2F interlinked with the Sustainable Products Initiative?**
- 12:00 - 13:00 **Hans Blonk**, CEO, Blonk Consultants
The toolbox.
An LCA practitioners view on the toolbox and the solutions.
The rulebooks, environmental data and IT-solutions for calculating product footprints in agriculture and for food products
- 13:00 - 13:45 **Lunch**
- 13:45 - 14:20 **Anna Woodhouse**; *Senior Researcher, NORSUS, Chair for Nord PEF AGRO*
The Nordic perspective. Recent Nordic results and considerations
- 14:20 - 14:50 **John Hermansen**, *Emeritus, Aarhus University*
Why do we need to improve the modelling of agriculture?
- **What themes does the modelling group look for answers to?**
- **What are the largest challenges related to agricultural modelling: A Nordic view**

September 29, 2021
10:30 - 16:00
[Register here](#)

- 14:50 - 15:20 **Henrik T. Halken**, *Group Vice President, Aller Aqua*
Market demand for environmental footprint data.
- **Use of Feed PECR for labelling**
 - **Supporting sustainable primary production through footprinting compound feed**
- 15:20 - 15:50 **Reflections from participants**
Moderated by Charlotte Thy, *coordinator for the NEF-Group, Bureau Veritas Denmark*
- 15:50 - 16:00 **Gert Sønderskov Hansen**
Closure

Background

The Nordic 2030 vision is to become the most sustainable and integrated region in the world. Important objectives for the vision are promoting circular and bio-based economies and sustainable and competitive food systems. In 2015 The Nordic Council of Ministers launched the Nordic Environmental Footprint Group to support Nordic collaboration on the integrated product policy in relation to creating a harmonized approach to environmental footprinting of products in the perspective of the EU product Environmental Footprint initiative.

The lifecycle perspective is central to many initiatives taking place under the EU Green Deal and PEF, with its underlying databases and product category rules.

More information on the presenters:

- [Claire Bury](#), European Commission, Deputy Director-General, DG SANTE
- [Anna Woodhouse](#); Senior Researcher, NORSUS
- [John Hermansen](#), Emeritus, Aarhus University
- [Hans Blonk](#), CEO, Blonk Consultants

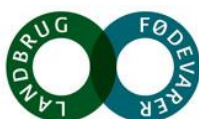

The event takes place 29 September 2021 from 10:30 to 16:00 in cooperation with the Danish Food and Agriculture Council and Bureau Veritas Denmark. Limited number of seats, but virtual attendance is possible. Registration deadline is 22 September. Link for virtual participation will be mailed to all participants.

The workshop is free of charge.
